Re: LightSquared Subsidiary, LLC  
Ex Parte Communication. IB Docket No. 11-109  
IBSF File No. SAT-MOD-20101118-00239

Dear Ms. Dortch,

I am writing to request that LightSquared not be allowed to go forward until it is shown that their plan will not interfere with high precision GPS. We use our high precision GPS units every day in providing surveying services to our clients. We cannot deliver a cost effective product to our clients without the use of our GPS equipment. So, not only will the surveying industry be harmed, but so will the hundreds of thousands of clients and other people who use the data that surveyors produce. I oppose LightSquared's request which ignores the recent independent test results. Please do not affirm LightSquared's license.

Sincerely,

Eric C. White, Indiana Professional Land Surveyor
